

## Enlist Duo® herbicide for burndown application

Enlist Duo® herbicide is available for burndown and pre-plant applications to allow growers and retailers an opportunity to experience the benefits of Enlist Duo.

Only Enlist Duo herbicide with Colex-D® technology combines the proven performance of new 2,4-D choline and glyphosate. The result: exceptional weed control designed to land and stay on target.

### The effectiveness you expect

With two modes of action, Enlist Duo® herbicide eliminates tough yield-robbing broadleaf weeds – including resistant and hard-to-control species. Take control in the field. And take your yield potential to the limit.

WEED SPECIES	CONTROLLED BY ENLIST DUO®
Common lambsquarters	✓
Common ragweed	✓
Eastern black nightshade	✓
Giant ragweed	✓
Lambsquarters	✓
Marestail <sup>1</sup> (horseweed)	✓
Morningglory	✓
Palmer amaranth <sup>1</sup>	✓
Prickly sida	✓
Velvetleaf	✓
Waterhemp	✓

Enlist Duo® herbicide takes care of major, tough weed species – including glyphosate-resistant Palmer amaranth, waterhemp and giant ragweed.

<sup>1</sup>Requires a broader management plan

### Select the right application rate

Apply 3.5 to 4.75 pints of Enlist Duo® herbicide per acre to young, actively growing annual weeds, according to the product label directions.

### Available package sizes

2 x 2.5-gallon bottles | 250-gallon totes

APPLICATION RATE OF ENLIST DUO® HERBICIDE	
Weed Competition	Application Rate
Weeds shorter than 6 inches	3.5 pt./A
Weeds taller than 6 inches	4.75 pt./A
Heavy weed densities	Up to 4.75 pt./A
Suspected glyphosate-resistant/less susceptible weed species (regardless of weed height)	4.75 pt./A

## Plant-back restrictions

<b>ENLIST™ CROPS</b>	No plant-back restrictions after burndown with an Enlist herbicide.
<b>COTTON</b>	Applications must be made not less than 30 days prior to planting.
<b>CORN</b>	Apply 7 to 14 days before planting corn to control emerged grass and broadleaf weeds.
<b>SOYBEANS</b>	Applications must be made not less than 30 days prior to planting soybeans.

### ALLOWABLE NOZZLES AND OPERATING PRESSURE (PSI)
